RENT LIVING SPACE TO VETERANS!

Now that winter is here veterans all over Canada are seeking accommodation for themselves and their families, while many homes have unoccupied space that would satisfactorily fill their needs. In this time that would satisfactorily int their needs. An Important ANNOUNCEMENT

To All Motor Car Owners

After many months of preparation — it is with pride and pleasure, we wish to announce the opening of our new garage.

We have built a large garage — roomy — bright — cheerful — and warm, easy to drive into, and with parking space to spare.

In this building, you will find every convenience and machine, to facilitate the speedy repair of your motor car — whether it be a minor adjustment or a major overhaul.

We promise you Friendly Service with a maximum of good-workmanship at a minimum cost and we can say without fear of contradiction — if we can't repair your car — we believe it's beyond repair.

Our staff includes Elwood Dulmage, Hector Jourdin, Frank East, and Robert Christmas, all licensed mechanics with experience ranging from 16 to 22 years, and any one of these four top-flight mechanics will assume personal responsibility to you to assure you that your requirements are carried out.

We want you to drop in soon — and whether you have a "job" for us to do — or just "look us over," you will be warmly received and cordially welcomed. As in previous years, and as soon as conditions permit, we hope to show you

BACK-SLIDER

Gone those resolutions splendid— Broken, never to be mended!

Seems as lightly as I make them Just as easily I break them.

When I pledge more patient smiling No one's near my temper riling.

When I promise to do better I'm caught up with every letter. When I'm in the mood to chatter

There's a simple explanation: When I vow there's no temptation.

Flaws in me grow wide and wider. Guess I'm just an old back-slider.

**BOB SAYS** HE'S ALL FOR 'BRISK'

"When it comes to tea, Bob always claims he can 'take it or leave it'. But he's just as crazy about brisk tasting Lipton's Tea as everyone else!"

There's nothing luke-warm about the enthusiasm that Canadians everywhere have for brisk tasting Lipton's, the tea with the lively, full-bodied flavour that is never dull, never insipid, but always spirited and tangy. For a new tea thrill, change to Lipton's, the tea with the lively, brisk flavour.

# LETTER VI

Beloved, chilled through by bad weather,
I've had an attack of the flu.
Always when we journeyed together
You knew what was proper to do.
With promphess you physicked and
plastered.
And doesd me and blistered for pain;
Then, shortly, the fever was mastered

And I was a well man again.

Beloved, the fever is broken;
Once more I am back on my feet.
"All right, now!" the doctor has spoken,
"Get up and return to the street."
I frowned once at powders you brought

me
When I was laid up by the flu.
But, two weeks of fever have taught me
How much I depended on you.

Beloved, the loved ones are willing
And eager my health to restore,
But somehow their methods of "pilling"
Lack something I trusted before. And somehow, there's something I'm

needing
That powders and pills can't supply,
I's nothing of dosing or feeding,
It's you that I miss standing by.

#### Former Controls by NATIONAL SELECTIVE SERVICE . now relaxed

The Permit System hitherto in effect under National Selective Service Civilian Regulations is now abandon-ed. In the interests of preserving an efficient employment service, only the minimum of requirements remain in affairt on follows:

- Employers are required to notify the National Employment Service of all vacancies in their establishments.
- 2 Employers are required to report to their nearest National Employment Office all addi-tions to their staffs.
- 3 Unamployed workers seeking employment are required to register with the National Em-ployment Office.
- A person terminating employment, either employer or employee, is re-quired to give seven days notice. (However, an exemption from the seven day rule previously authoris-ed under Selective Service still ap-plies.)\*\*

Advertising, by either employer or employee, is now entirely unrestricted.

These few remaining requirements are the very minimum necessary to give the Local Employment Offices a reasonably somplete picture of the manpower supply and demand to anable them to rander efficient service to both Management and Labour.

"Come in," they said, "a day or two And let the experts study you. We'll push and probe and photograph We'll push and probe and photograph.
And thus postpone your epitaph.
You'll better feel — we know you will —
To find your heart is beating still.
A careful check-up will reveal
Whether or not you still can feel."

So in I went, where day and night So in I went, where day and night Are pretty nurses dressed in white Who thus the patients reassure: "I merely want your temperature!" Or this: "Get up and don your robe. The doctor wants inside to probe. He wants to photograph your 'tum.' So drink this quart of barium."

I breathed for doctors: ah'd and oh'di I breathed for doctors; sh'd and oh'd I laside and out of me I showed; I jigged; I coughed; my breath I held; My name, for all who saked, I spelled. And this I learned, the check-up done: "Of ills organic you have none. You're functioning with senses five. Good news, old man! You're still alive!"

Just suppose the weather stayed Always clear and pleasant, Never change of wind or shade, Alike both past and present, Don't you think we'd wish for rain Beating at the window pane?

Just suppose a blazing sun Always marked the dawning, Seasons four together run, Never a cloudy morning, Never the fresh green of spring, And only tired birds to sing;

Rain to deserts is denied Hot and dry the daytime, Lizards under cactus hide; Lost, the charms of Maytime. Like it? In a month or so Most of us would long for snow So life needs its blend of care,

Yes, sometimes and sorrow, And the strength its tasks to bear, Both to lend and borrow. Both to lend and borrow. Happiness throughout the years Needs the change from smiles to tears.

# **ALL BROWNS' BREAD** BAKERY SERVICES RESUMED

# Union and Management Co-operate to End Strike

The Management of Browns' Bread Limited and Union officials of Locals 264 and 847 of the A. F. of L. have signed Union agreements satisfactory to both.

In making this joint announcement both parties find reason for deep satisfaction in the knowledge that this marks the end of a period during which the customers of Browns' Bread have been without the Bakery products and services of this organization. It is indeed unfortunate that industrial disputes should in any way inconvenience the public. Throughout the strike we have been conscious always of the difficulties being experienced by Browns' Bread customers. We are sorry indeed that this has occurred and, in expressing our regret, we wish to pay sincere tribute to the patience, understanding and tolerance

everywhere displayed by the customers of Browns' Bread and by the public in general.

Agreement has been reached in an atmosphere of confidence and goodwill. The Management and the Unions have pledged themselves to co-operate in the re-establishment of industrial harmony. We are determined to strive together to create a common basis of happy labor relations for the good of all con-

All Browns' Bread employees are returning to work. The familiar yellow and red Browns' Bread delivery wagons and trucks will be once again on the streets in your neighborhood on Thursday, January 17. We look forward with great pleasure to resuming the services which it is our privilege to render to so many of our fellow Canadian citizens.

# "IT'S EASY TO **KEEP UP WITH**

"No trouble for us to keep in the social swim. We just float along on the brisk flavour of Lipton's Tea because we introduced it to our crowd and everyone still feels grateful."

In any circle, in any set, Lipton's Tea is a success because everyone enjoys its lively, full-bodied flavour which is always so spirited and tangy that it makes ordinary teas seem flat and wishy-washy. Enjoy the tea that experts say has brisk flavour. Ask your grocer today for brisk tasting Lipton's Tea.

Time was my mother brewed for me A bitter draught of senna tea, Or slippery flaxseed when I had A cold particularly bad.

I fancied, as I tossed it off, The cure more cruel than the cough, But from the "doctor book" she'd thumb Were tortures even worse to come.

With loving fingers oft she pressed A mustard plaster on my chest, A bilstering splotch of fury pure, To prove what mortals can endure.

I wonder what's become of these Old-fashioned, faithful remedies? Have one and all been thrust aside For forms of sulfanilimide?

# "SO BRISK! **HOW DO YOU**

How do you do it?" "Very simple, Mrs. Primrose, I buy brisk tasting Lipton's Tea ... that's all there is to it!"

For richer, finer tea enjoyment than you've ever had before, ask your grocer for brisk tasting Lipton's Tea. Lipton's lively, fresh, full-bodied flavour is always spirited and tangy, never flat or insipid. So for a pleasure that increases with every cup, change to Lipton's, the tea with the lively, brisk flavour.

"What wonderful flavour, Mrs. Brown.

# **Public Confidence**

THE LONDON LIFE is now trustee for over three-quarters of a million policyholders. The extent of the confidence placed in it during the past year can be measured in part by the purchase of \$13.8,300,000 will insurance. The rotal smoot of lawrance in force is \$1,153,000,000 -an increase of \$99,491,000. It is non-wortly that the quest by Casadinas for famacial security resulted in an increase of half a billion dollars of life insurance in this company during the war years.

This record of growth has meant a corresponding increase in the company's obligations to policipolders—tize being a measure of responsibility. The assets amount to \$226,229,000—s mm smitchen to meet all the obligations of the company and provide a wide margin of security. Surplus funds for the added protection of policyholders toul \$1.8,460,000.

Money invested in life insurance has rightly been termed "double duty dolbars". While it provides the policyholder with the desired financial protection for himself and his family, it is invested in ways that are most reliable to the country.

During the war the company invested \$145,000,000 in Victory
Dondra sum more than 50% greater than the increase in the assets for
the period of the war. In the days that lie shared, finals held for the
future benefit of policyholders will be used to aid the transition from
war to peace; to assist people to build or buy homes; to aid business
and industrial enterprise and to fannee public works.

A determining factor in the attainment of its present position has been the loyally and efficiency of the sales representatives of the company. The high quality of their work as life insurance counsellors has been of great value to their clients.

Public confidence in the London Life has been created by its record for low cost, fasaccial strength and skilled field. In these important considerations the company is byilding also for the years ahead—an assurance of continued satisfaction to policyholders.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1946, Edgar A. Guest) WHEN TO WRITE

Now's the time to write a letter.

Now so have it on your mind.
Never moment that is better.
In a lifetime will you find.
The thought that prompts you to it
Selze immediately upon,
For you'll seldom get to do it
If you wait till later on.

You may think: "I'll write tomorrow,"

You may think: "I'll write tomorro
But it's ten to one you don't.
Write it now or to your sorrow
You'll forget it and you won't.
In a minute you'll have penned it
And be glad to know it's gone,
But you may not live to send it
If you wait till later on.

Oh the time for iron smiting Is the moment iron's hot,
And the time for letter writing
Is today—upon the dot.
Seize the minute and go to it,
For the odds are ten to one That you'll never get to do it If you wait till later on.
